Mr. Al Winston

OUR PLEDGE

"We, the Board, hold this institution in trust for the public, that supports and depends on an effective, diverse and competitive "system" of higher education.

We voluntarily serve, to uphold its purpose, set and accomplish, the mission, goals and objectives of Barber-Scotia College, while protecting its "brand" and fulfilling the duties of such stewardship, strategically, professionally and objectively, all-for the "greater good" of the institution."

OUR GOVERNANCE MODEL

Barber-Scotia College Board of Trustees operates under the "Governance Model" which enables the membership to focus upon institutional fiduciary stewardship and Institutional policies and procedures; enabling the Board to achieve desired outcomes as related to institutional mission and goals.

The current Board of Trustees meets monthly to ensure effective and efficient operations of the College. Meetings are open to the public.

STEWARDSHIP IS HEART WORK

Letter From the Board of Trustees for Barber-Scotia College

Alumni, Family & Friends,

This year marks the **150th anniversary** of Barber-Scotia College's (BSC) founding. A most humbling, yet gratifying milestone, which prompts and empowers each of us, to reflect on the past, properly manage the present and passionately take the future-by storm.

Historically, the College has weathered many challenges, with 2004 and 2016, each bringing almost insurmountable obstacles. The cancellation of academic courses for institutional reorganization is never easy, as it brings the need to restructure its base and review its mission and goals.

The success of the challenge largely depends upon the diversity and cohesiveness of the Board of Trustees and College's alumni. Commitments, transparency, personal and financial investments, are essential. The implementation of forward-thinking ideas, creativity, and the entrepreneurial spirit are directives to successful operations and management. Sound stewardship is the heart of the future operations of Barber-Scotia College.

We ask that You stand with the Board of Trustees in the journey of rebuilding and re-branding the institution, a place that has provided so many, a path and means of success and stability. We humbly request your support and participation, to help honor the commitments of the past, while grabbing hold of the possibilities of the future and pivoting into an **Institutional Advancement Model** of Excellence and Prosperity, an example for all Colleges and Universities.

Your support and the support of the community will ensure the success of the College and enable it to not only provide high quality academic programs, with strong work development skills, but also regain its institutional integrity and character. We look forward to the opportunity to serve.

With appreciation and gratitude,

The BSC Board of Trustees
